WORK EXPERIENCE

Fresher - Ready to Start My Journey

Eager to Begin my professional career and contribute to innovative projects. Looking forward to learning from experienced developers and applying my skills in real-world scenarios.

Development Roles | Web Designer

PROJECTS

Insta Lite [↗](#)

Developed a Java-based social media application with MySQL integration, supporting user registration, login, friend requests, messaging, media uploads, and reel interactions (like/save). Implemented backend logic for posts, reels, and user relationships using JDBC.

Personal Portfolio Website [↗](#)

A modern, responsive portfolio website designed to showcase professional skills and projects with an elegant user experience. Built with vanilla JavaScript and modern CSS, this portfolio features smooth animations, interactive elements, and a clean, professional design.

Begin2Code [↗](#)

A cloud-deployed EdTech platform engineered to simulate a real-world learning product — covering authentication, structured course delivery, emails, dashboards, and scalable backend design.

Velora - Where Elegance Meets Fragrance [↗](#)

Velora is a modern perfume brand prototype built with **HTML and CSS.

It showcases elegant product layouts, immersive branding, and a simple shopping-style interface.
